Russia no assistance by allowing steamers of the volunteer fleet to pass the Dardanelles. The Jiji Shimpo declares that Great Britain is bound, under the terms of the Anglo-Japanese alliance, to prevent such assistance being given.

ARMIES ALWAYS IN TOUCH.

LONDON, July 18.—The morning papers have dispatches from rrespondents at Gen. Kuroki's headquarters which bring the situation in the Far East up to July 16th. All of the writers agree in saying that the situation is unchanged, but that the armies are always in touch, that the Russians are being strongly reinforced and that a battle may be expected any day. Slight skirmishes are reported to have taken place on July 15th.

LANDING OF THIRTY THOUSAND JAPS.

"Herr von Binderkriegistein, the German war correspondent who was recently allowed to depart from Mukden, where he had been arrested on suspicion of being a Japanese spy, reports that between the 11th and 18th of July some thirty thousand Japanese landed in the neighborhood of Pigeon Bay (in the rear of Port Arthur, to the westward near the end of Kwangtung Peninsula.) He adds that the landing operations were covered by the entire Japanese fleet, and that the Russians offered only faint resistance by firing a few shots from the shore batteries.

"Von Binderkriegistein, who wrote his message while cruising off Port Arthur, states the weather was calm, and that the landing was proceeding without interruption."

HELD UP THE WAIPARA.

IBY THE ASSOCIATED PRESS-P.M.1

LONDON, July 18.-A dispatch from Aden to the Daily Mail says that the captain of the British vessel Waipara reports that the Russian volunteer steamer St. Petersburg signaled him to stop by firing across the bows of his vessel on July 15th while 20 miles off Jebel Zugur, in the Red Sea.

The Russians examined the papers of the Waipara, and de clared that they would hold the ship as a prize. The captain protested, and was taken on board the St. Petersburg, where he gave the Russian officers a guarantee that there were neither arms nor ammunition on board the Waipara destined for Japan. The vessel was detained for four hours, and was then allowed to proceed.

The captain confirms the report that the Peninsula and Oriental Steamship Company's Malica was seized in the Red Sea, July 16th, by the St. Petersburg, on the ground that she carried arms and munitions of war for the Japanese government.

les of these vessels of the volunteer feet as merchantmen, and their conversion into ships of war. The general view in diplomatic circles, even where sentiment is not particularly friendly to Russia, is that wails the passage of the Dardanelles might be considered a piece of sharp practice on the part of Russia, it is an accomplished fact, and the powers will not now regard it as a violation of the Treaty of Paris, but will guard against its repetition. The diplomatic circles think that some of the powers might insist that henceforth all volunteer vessels shall be regarded as warships within the meaning of the treaty.

One of the interesting questions in this connection, the diplomats believe, will arise out of Russia's declaration that coal is contraband, of war. With prize crews on board, the captured ships could be sent to Russian Baltic ports, but if short of coal, they could not put in at neutral ports to replenish their supply. This same question may embarass Russia when the Baltic squadron sails for the Far East.

In view of the protest made by Germany in the case of the steamer Bundesrath, (steamed in Delagoa Bay December 19, 1899.) during the South African War as the result of which Great Britain had to pay damages, much curiosity exists as to what Germany will do in the case of the confiscation by the Smolensk of the mail sacks on board the North German Lloyd steamer Prince reinrich, especially as a large portion of the mail selsed was undoubtedly of a commercial character.

GRAFT IN RUSSIA

BALTIMORE (Md.) July 17.—[Ex clusive Dispatch.] Few men in the United States are better qual-ified to speak on conditions in Rus-sia and the Russian army than is G. M. Hutton of Baltimore, who, as

He is too much bent on catering to his own pleasures to study the profession. Russians are not students, and they despise work. The consequence is the Yalu, Kinchou, Nanshan Hill and numerous naval catastrophies at Port Arthur.

"But worse than the incompetency of officers is the corruption among them. I was in Russia during the Russo-Turkish War, and well remember the horrible corruption uncarthed then. "There is not on record more flagrant instances of 'graft' in any country, and I notice that this sort of thing is no better today than it was in my time. Take, for instance, the case at Harbin, where Russian officers were selling powder out of the government stock to Chinese merchants, and, as if that was not rascality enough in itself, cheating merchants by filling the boxes more than three-quarters full of sand and sprinkling a little powder on top. With such dishonesty running through the supply departments, can it be wondered at that brave solders are short of food, and have not the stamina to withstand the scientifically-delivered shock of the Japanese army?

"There is one man in Russia who is ancerely to be pitted. That is the Emperor. He is a man of the gentlest nature, cultured, lovable, kindly, and in the highest degree a noble-

T DIRECT WIRE TO THE TIMES! NEWARK (N. J.) July 17 .-[Exclusive Dispatch.] Through medium of interviews and ements by his persona organ here, ex-United States ator James Smith, Jr., is indeting that Judge Parker's oney dispatch to William F. Sheehan was not as the literature of the campaign as the Judge's friends believe. Ex-Senator Smith Intimates that the credit of having forced that sensational deliverance from Esopus belongs to the New Jersey delegation to the national convention.

The ex-Senator's version of the matter is that the New Jersey delegates were much discouraged by the failure of the platform to make reference to the money question, and that hearing that the plank was to be omitted, some of the Jerseymen protested that the East would be inevitably jost to the party. The ex-Senator urgent in demanding that the error be corrected before it was late, and when he saw the Parker managers disposed to pay no heed to them he notified ex-Senator Hill and Sheehan that he would open the question on the floor of the convention, even, he says, going to the length of presenting a speech

the subject. Hill and Sheehan, he says, put with Judge Parker, and the that McCarren is absolutely in power, and that nothing will satisfy the race-track gambler, sugar trust and Standard Oll agent, and boss of Brook-

Standard Oil agent, and boss of Brooklyn but the scalp of Murphy, dangling at his belt.

The situation bodes nothing but disaster for the Democracy of New York State, and makes the triumph of Roosevelt absolutely certain. It is evident that Hearst's support of the Democratic ticket is of the deadly Bryanite character, as his papers seem pledged to the mission of creating a schism in the New York Democracy. In view of the attitude of the American and Evening Journal, the Democratic leaders here will not be surprised to see Hearst jump the tracks at any time, using Parker's evident subserviency to the wishes of Hill, Belmont and McCarren as an excuse.

BOTH SIDES STUBBORN. The American says: "McCarren's boast that he would make Tammany Hall 'step up to the captain's desk Hall step up to the captain's desk, he being captain, during the Presidential campaign, assumed new significance last night, when it became known that Charles F. Murphy would not visit Judge Parker at Rosemont, and would not be a party to the grand conference to settle questions as to the national chairmanship, policy of the campaign and the whole as to the national chairmanship, policy of the campaign and the whole plan of battle. From Esopus comes word that Judge Parker has not invited Leader Murphy to visit him and will issue no such invitation, though almost every other conspicuous Democratic leader is bidden to advise with him. From Tammany men comes the retort that the true explanation is that Murphy has absolutely declined to visit the candidate."

WIELD TO SCALP TAMMANY

WISH TO SCALP TAMMANY. WISH TO SCALP TAMMANY. It is a nice question, and one on which much depends. Upholders of the anti-Tammany faction are saying that this ignoring of Murphy means that August Belmont, David B. Hill and Pat McCarren are about to inflict the extreme penalty on the Tammany chief for his fight during the Albany convention, his announcements that Judge Parker could not carry New York if nominated, and his attitude of opposition and protest up to the final action of the convention at St. Louis.

McCarren is jubilant at the pros-pect. Already he sees, with his mind's eye, the scaip of Leader Murphy, who took Brooklyn patronage away from him, suspended at his tent pole.

TAMMANY HAS THE GAME. Tammany braves point out that it rarker, it is the organization in New York City that must do the work. This being the case, Tammany regards the game as being in its own hands, and considers that it lies with it to offer terms rather than to accept dic-

and considers that it lies with it to offer terms rather than to accept dictation.

Nothing less is contemplated, according to McCarren's view, than the utter cellipse and political annihiliation of Murphy, and it was the gossip uptown, last night, that the plan and not even stop with the downfall of the leader, but that it was proposed to break the power of Tammany Hall. The plan contemplates the erection of McCarren into a Democratic wiceroy in Greater New York; an over-lord of Tammany, from its most persistent enemy and rebel.

HOFFMAN HOUSE MEETING.

The grand campaign conference at the Hoffman House tonight will be held without Murphy, the first open declaration of hostilities. Sheehan will be there and Norman Mack and Vice-Presidential Candidate Davis, and Gorman and Guffey of Pennsylvania, and others from the West and upstate, but not a single representative of Tammany Hall will be included in the important council of war. Tammany men content themselves with the statement that the wigwam has never shown any indication of inability to take care of itself. It is significant that, for the first time in many Presidential campaigns, Tammany Hall has held or planned no ratification meeting. Even when Bryan was the nominee, and Tammany was butter at his nomination; when Bourke Cockran and August Belmont fiew the ticket and came out for Palmer and Buckner, the wigwam whooped it up in a rousing meeting. Now, however, Senator George Plunkett makes the announcement that Tammany is too busy to get up a ratification meeting; that there is a State convention coming, and that the leaders wil all be octhat there is a State convention com-ing, and that the leaders wil all be oc-cupied with the primaries, and that nothing can be done until after the

with Lieut-Gen. Sakharoff's report, says:

"A British gunbaut appeared off linkow, July 15. The commander wanted to enter the port to guard the interests of the British residents in view of the probability that the town may be shortly occupied by the Japanese. Slevoutch housted a battle flag, went out and requested the British vessel to draw off, which it did. It is reported the gunboat returned later with two other vessels. All these put to sea that night.

"The enemy is continuing to advance. Gen. Mistchenko's force in warm skirmishes south of Kanchi discovered a big force of Japanese moving toward Kanchi and Simautehen. The groups of Japanese to the southward remain about stationary."

One of the most notable recent sales on the East Side was that of the Elijah Moulton estate to the Edison Electric Company of three acres extending from the Edison electric plant to Moulton avenue and including what has been known as "The Swamp" or "The Jungle." The Edison Company paid \$19,600 for this property. Considering the location and the character of the land, this is considered a remarkable price.

It is reported that a new suburb of the East Side will soon be opened to the public. Milton Mexner has purchased five acres on the north side of Dewey avenue at the extreme northern end, and is now laying water pipes through the land. The grounds have been plotted and will be improved for a residence section.

The first monthly report of Sergt. W. H. A CHANGE OF TONE.

In the new Davenport "recall" petition, which has been framed with the avowed intention of making another assault upon the Sixth Ward Councilman, there is noticeable a marked change of front. The new petition's language is far different from that used in the first petition; it is very much modified, the accusative tone of the first petition being distinctly absent from the new petition.
It will be remembered that the language of the first petition framed by the tricksters and gangsters was very strong, and attacked Cou Davenport's personal as well as his

names, charged violation of his oath of office and contained numerous strong epithets—all of which are omitted from the new petition. sion of personal abuse and accusa-tions from the new petition is proof positive that the gangsters know and practically admit that the accusations in the first petition were false, that they have no ground for attacking Councilman Davenport in the way they did, and that they have grown very cautious about the em-ployment of libelous language. They

Moreover, they see a monster bear-ing down on them with blood in ...s eye, and they justly fear it. They know they must look out for the "ref-erendum," which fortunately stands between honest public officials and to dishonor them by removing them from office without warrant and solely from a spirit of personal malice

Defeated in their attempt to injury Councilman Davenport in connection with the city printing matter, the gangsters are now relegating that meetion to the background searching for other "complaints against the Sixth Ward Councilman They are bringing up automobile divers other equally absurd things in an effort to delude the people into helping them in their personal fight against Davenport. The main issue, which Earl claimed was made for the purpose of "testing the 'recall," but which was actually made only to gratify personal malice, has been ob-scured; and that fact alone is ample proof that the whole movement against Councilman Davenport was based on wrong in the first place and carried forward, to a miserable failure, by political tricksters for per

sonal vengeance. The great "mass meeting" Saturday-night was a sorry failure. It resulted in the securing of only forty names on a new "recall" petition, and Exhorter Norton; and to accomplish even these semblances of "results," the Sixth Ward. In fact, not a single speaker at that meeting was elector of the Sixth Ward.

STATISTICS OF BAILWAYS. The Interstate Commerce Comits statistics of railways in the United States for the fiscal year ending June 30, 1903. The statistics compiled by the commission, though generally about a year behind the year in which they are issued, are interesting.

Prom the summary just issued it appears that the par value of the railway securities outstanding in the United States on June 30, 1903, was \$12,599,990,253, representing a capital-zation of \$63,186 per mile. The number of passengers carried during the year was 694,891,535, which was an intotal of 1,304,394,323 tons, being an by the architect Sir Joseph Paxton, ncrease of 104,078,536 tons over the in the shape of an immense conservered by the architect Sir Joseph Paxton in the shape of an immense conservered by the stall toward at the stall tow

age is given at 205,313 miles, and the ross earnings for the year amounted o \$1,900,846,907, being an increase of aggregated \$1,257,538,852, which was an increase over 1902 or \$141,298,105, The net earnings amounted to \$643, 308,056, an increase of \$33,176,335. The income from other sources than opera-tion aggregated \$205,687,480, giving a net income available for dividends or surplus, amounting to \$296,376,045, or an average of somewhat less than \$1500 per mile. In the matter of casualties, the

tatistics are far less satisfactory than those relating to receipts and expense of operation. The total of casualtie ber of 86,393 persons, of whom 9840 were killed and 76,553 were injured. This is indeed a large army of killed and wounded for a single year. Making all possible allowances, it seems number of persons as 9840 should be tilled on the railroads of the United States in a sirgle year, or that, so large a number as 76,553 should be injured. This annually recurring sac-rifice of life and limb on the altar of railroad traffic is a reproach to our civilization and our boasted progress Of course, there is now not the slightest possibility of going back to the slow methods of stage-coach days, but It is a fact not to be lost sight of that travel in the stage-coach days was at least comparatively safe.

The fact that this great annual sac rifice of life and limb under the wheels of the railway Juggernaut is unneces mecantions against loss of life and in ailways, shall be taken, and evidently these greater precautions must be taken before the disgrace and outrage of this annual slaughter can be re-moved. There are some accidents, of avert. But the larger number of rail-way accidents are of a kind which are preventable, and are therefore due to The solution of this problem is one of extreme difficulty. Legislation is not alone sufficient to furnish a solution. The railroads must take up the ubject systemati entisfactory results can be reached. It would probably pay them to do so, from a money point of view alone, for the annual cost of the slaughter, to the railroads, is enormous. The money cost, however, is as nothing compared to the loss of human life and the naiming of human bodies, which can-not adequately be reckoned on a mere money basis.

WORLD'S FAIR TOO SIG.

Telegraphic advices from St.
Louis, published in the press, have
given glowing accounts in regard to
the large attendance and the prosperous financial condition of the exweeks ago, from a man at St. Louis who has special facilities for learning the inside facts, stated that the ex position was not at that time making lighting. Again, a Los Angeles man who, while on a visit to St. Louis made a careful study of the exposition from a business point of view, asserts cially, and that the deficit will not

fall short of \$10,000,000. As to the cause, or causes, of this unsatisfactory condition of affairs, the chief are doubtless these four: First, treed as an intelligent and enterprising merchant would advertise a big stoo of new goods, or a railroad, a big ex-cursion. Comparatively little is seen in the papers about the exposition, although most newspapers would have been glad to publish well-written articles descriptive of the fair. There must be a screw loose in the St. Louis

Second: Statements were sent broadcast throughout she land, and have effect that the people of St. Louis had emon-squeezing act with the strangers within their gates, and that they ntended to leave very little juice in the lemons, by the time they got through with them. This has undoubtedly induced many people of moderate means, who were thinking of visiting the exposition, to revise their intentions and decide to stay

Third: .The people are becoming comewhat weary and blass in regard to these world's expositions. The Cen-tennial at Philadelphia was a new thing for this country, and the novelty still attached to the big show at Chicago. Since then, we have had a number of minor expositions in various parts of the country, and the fickle American public—or at least a considerable portion of it—has come to look upon them as a sort of "Uncle Tom's Cabin" or "Old Homestead" play. In short, something new is denanded by a restles people in a restless age. .
Fourth: These world's fairs have

become altogether too monstrously big—too unwieldy. When the first world's exhibition, as our British friends call them, was opened in London, through the influence and enter-prise of Albert the Good, in the vain hope that it might lead to an era of rear was 694,891,535, which was an in-crease over the preceding year of 15,623,030. The freight carried reached designed, in a moment of inspiration, The building was subsequently re-moved to Sydenham, in the southern suburbs of London, where for half a century it has been a popular resort for the masses, under the name of the Crystal Palace. In this building a person could get a very fair general of the exhibits in a single day. To merely take a cursory glance at the exterior of all the buildings at St. Louis requires more time than this, while to obtain any intelligent idea of their time than a great majority of the via-

Yet another thing. Experience has shown that while these immense exto a city, and bring in considerably more money than is expended on then by the local authorities, yet, as in the case of any other stimulant, they was so at Chicago, where, after the big World's Fair, there was a protracted season of great duliness in real estate. Such being the case, comunities will be apt to inquire whether the game is worth the candle. It is probable that this will be the last of the very large general world's fairs in the United States. They will probably be replaced by more n expositions of a local kind, such as the Lewis and Clark Exposition, for sive preparations.

A mining company sued the Victoria branch of the Western Federation of Miners for damages done to its business by the federation's members during a strike, and judgment has been granted the company in the sum of \$12,500. It is daily becoming more evident that the strong arm of the law will protect employers against the tyranny and violence of unionism—a fact that will be noted with satisfaction not only by employers but also by all workingmen who are sincerely anxious to advance employers sincerely anxious to advance their cause and break away from the domination of unscrupulous agitators, demagogues and "leaders," who only make trouble and accomplish no good

Comparison of the gross earn English and American railways English and American railways develops the interesting fact that the latter did almost four times as much business as the British roads did during 1903. The figures for that year show that the English railways collected in railroad fares, \$223,760,000, and the income from freight was about the same amount; a total of approximately \$479,520,000. The gross earnings of 167 American railroads during the same period were \$1,733,784,055.

JUNE CIRCULATION OF THE TIMES.

CAUSE AND EFFECT. The Times printed in June, just past, 116 more columns of paid matter than for the corresponding month of 1903, or a total of 2789 columns.

There are doubtless many reasons for this phenomenal increase in the business of The Times. The fact that it has a larger legitimate circulation than any other three daily papers printed in Los Angeles, and therefore brings advertisers greater results in proportion to the cost of advertising in its columns than does any other paper, is no doubt the chief reason for its large increase of business. It is paper, is no doubt the chief reason for its large increase of business. It is possible, however, that among the minor causes which have contributed toward this large increase in business is the fact that the Los Angeles Express devoted over forty columns of its more or less valueless space, as shown have actual measurement, to abusing haps one of the few instances where haps one of the few instances where space in this evening sheet has proved beneficial to the interests to which it has been devoted. REAL ESTATE NUMBER.

The Times will issue, during the fore part of August, a special Real Estate Number. The subject matter and illustrations will be devoted entirely to city and suburban lands, country property, building industries and real estate enter prises, past progress and future prospects. A graphic history of the development of the Southwest during the last quarter century will be made one of the principal features of the publication, and no effort or expense will be spared to make the facts contained in this special edition authentic and informing. It will be essentially a publication for the prospective homeseeker and settler.

Advertisers desiring space in this number should consult the Business Department early, as only a limited amount of advertising will be received for it.

It is the intention of the publishers to mail a copy of this special number to a selected list of over 20,000 persons now living at a distance.

The steamer was brought to her dock, and during the afternoon, although her pumps were kept going steadily, she sank two feet by the bow. Officials of the Canadian Pacific Navigation Company explain the actient by the fact that the vessel was traveling twenty knots against a swift outflowing tide, when she suddenly took a sheer to starboard, shot off at a tangent straight into the rocks and that owing to her high speed and the auddenness of the sheer, it was absolutely impossible to reverse the engines or put down the helm hard enough to port to counteract the sheer. ILWACO (Wash.) July 17.—The three-masted schooner Zampa, en route from San Pedro to the Columbia River in ballast, lost her rudder at sea and drifted ashore at high tide this morning at Leadbetter Point on North Beach, about ten miles morth of Cape Disappointment.

During the past three days there have been severe gales off the mouth of the Columbia River, during which it is stated that the Zampa's rudder was carried away. The schooner was thenceforth at the will of the wind, and after wallowing about for several hours was finally driven on the sanda of North Beach. When the tide ebbed about noon today, the Zampa was left about three hundred feet from the water and her master, Capt. Kellenberger, his wife and crew of nine men were all r. cued without loss of life.

Although the schooner is not much damaged, it is unlikely that she will be salvaged, as no ship has ever been dragged off these sands, and she is probably not of sufficient value to warrant canaling across to Willapa Harbor.

Baker scrambled to his feet and began slashright and left, and before the knife could be taken away from him he had stabbed Kiely.

Wood fired into the crowd while lying on the ground. Two of the bullets hit Durand, one of the attacking party. This opposition of the negfores set the crowd into a frenzy, and had not the police inade a quick response to a riot call some of the strike breakers would undoubtedly have been killed. As it was, they were thrown to the ground and knocked insensible before the police could scatter the crowd. Several of the rioters, together with Wood and Baker, were arrested.

KANSAS CITY (Mo.) July 17.—There was practically no change in the local strike of the packing-house employés today. At two plants, Fowler's and Schwarzschild & Sulsberger's, a small' amount of killing was done, despite the fact that it was Sunday, and at all the six big plants preparations were made for opening tomorrow on a big scale. The different managers asserted that they were constantly employing more men and were in fair shape. The president of the Central Labor Union, which controls the engineers and other union labor still at work in the plants, asserted tonight that unless the strike is settled before next Sun-

The injunction was issued at the instance of Armour, Swift and Nelson Morris packing companies. This is believed to indicate that the packing companies expect to start up again in a short time.

the test of the appeal court, it is felt by the trades unionists that the right to strike in British Columbia is practically forbidden.

The case will be appealed largely because the jury found that the defendants had not conspired to induce men who had entered into contracts with the plaintiff mining company to break such contracts. The appeal will be taken to the full court of British Columbia. The miners union owns the hall in Rossland, valued at about \$5000. Seisure of this and property belonging to individual defendants will cause much trouble, making it improbable that the mining company will force its right in this respect. The effect of the verdict will be far-reaching in western labor matters, particularly since the jury returned it.

PHILADELPHIA, July 17.—For the first time in years, the West Philadelphia abattoir was 4n operation today because of the threatened scarcity of meat, due to the western strike. During the day, 500 head of cattle were slaughtered by independent dealers. The Philadelphia houses of the western packing concerns have only a small supply of meat on hand, and the local independent butchers are striving to take whatever business the western houses are unable to handle. The independents declare they can take care of the entire city. There is plenty of live stock in sight, but prices have been advanced about 2 cents.

Recruiting offices were opened here today for the purpose of filling the places of the strikers in the West.

NEW YORK, July 17.— [Exclusive Dispatch.] Judge Dennis Daniel McKoon, a New York lawyer, has disappeared and the police have been notified by T. W. Darby, a friend and business associate, that he was kidnaped in lower Broadway shortly before noon Friday last, and is now being held for ransom. Letters have been received from Judge McKoon, Darby says, asking that 15000 demanded for his release be paid. According to these letters, ex-Judge McKoon, who is 78 years old, met three men who had arranged a business appointment Friday and they took him to a house, the location of which was unknown to him, where he was kept a prisoner. The letters he wrote he would throw out of a window to a boy who was passing. Capt. trance to the harbor here at 11 o'clock this morning. Two plates were stove in on her starboard side and two blades of her starboard side and two blades of her starboard propeller were broken. The steamer was brought to her dock, and during the afternoon, although her pumps were kept going stead'ly, she sank two feet by the bow. Officials of the Canadian Pacific Navigation Company explain the accident by the fact that the vessel was travelling twenty knots against a swift outflowing tide, when she suddenly took a sheer to starboard, shot off at a taigent straight into the rocks and that owing to her high speed and the suddenness of the sheer, it was absolutely impossible to reverse the engines or put down the helm hard enough to port to counteract the sheer. The steamer struck heavily just above the place where the steamer Beaver was wrecked. In backing off, the strong corrent threw her stern around so swiftly that a second accident could not be pevented, and the heel and propeller crashed on the rocks near where the steamer had just struck.

The Princess Victoria will come to Esquimault drydock Monday for repairs. The officials say the damage is very serious. One propeller is destroyed, and the forefoot is smashed in from the terrible impact. The coverthe Victoria's run. The steamer Danube

North Beach, about ten miles north of Cape Disappointment.

During the past three days there have been severe gales off the mouth of the Columbia Biyer, during which it is stated that the Zampa's rudder was carried away. The schooner was thenceforth at the will of the wind, and after wallowing about for several hours was finally driven on the sanda of North Behch. When the tide ebbed about noon today, the Zampa was left about three hundred feet from the water and her master, Capt. Kellenberger, his wife and crew of nine men were all r. cued without loss of life.

Although the schooner is not much damaged, it is unlikely that she will be salvaged, as no ship has ever been dragged off these sands, and she is probably not of sufficient value to warrant canaling across to Willapa Harbor.

FATAL FIGHT AT THE YARDS.

Three Men Injured and One Will Die at Chicago.

Packers Will Not Recede from Their Position.

Leader Donnelly at St. Louis Abattoirs Opening.

IBY THE ASSOCIATED PRESS—P.M.1 CHICAGO, July 17.—in a fight growing out of the meat packers strike at the stock yards, this after-

There was little, if any change in the situation of the meat packers' strike here today. With M. J. Donnelly, the strikers' leader, in St. Louis, looking after that end, there was no effort made to renew the peace negotiations which lasted through three days last week and were termented last each without results. three days last week and were ter-minated last night without results. Whether another attempt to reach an adjustment of the controversy by sr-bitration will be made is problematic, as the packers, believing they had the better of the argument in last week's conferences, are little inclined to offer any concessions to the strik-ers.

one thing is certain, the packers say and that is that they will not recede from the position they assumed last week, and that the strikers will have to conform to the employers' ultimatium before any further peace plan looking to a settlement by arbitration will be successful. To add to the packers' determination to stand firm is the fact that they have steadily increased their working force at the plants. Under these conditions the packers have assumed a more independent attitude, and are more determined tonight than ever that they and not the strikers, shall dictate the terms on which the controversy shall be arbitrated.

As the strikers declare they conceded every point possible in last week's negotiations, there is little likelihood that any further conferences, for the present, at least, would amount to much toward a satisfactory settlement of the strike. The point to the whole question of arbitration is the reinstatement of the striker. Mr. Donnelly yesterday waived every other demand he had made, and agreed to order the men back to work, leaving the adjustment of all differences to arbitration, if the employers would take back all the strikers in a body. This the packers refused to do, maintaining that they had smployed many new men since the strike They promised, however, to take back the old employers as rapidly as possible, and in the order in which their applications were fled. The union officials declare that they will never accept this proposition, as they say it would mean the disruption of the union.

ion.

To complicate the controversy still more, the allied crafts at the stock yards, numbering 14,000 workmen, have become restless, and are anxious to join the men already out in a sympathetic strike. Whether these men will go on strike or not will be decided tomorrow, when Donnelly returns from St. Louis. These unions representing thirty of the mechanical trades in the packing plants, have decided to quit work if Donnelly says so.

The officials of the Union Stock Yards and Transit Company and a committee from the firemen, oilers and water tenders, employed at the yards will take a hand in the strike tomorrow and endeavor to arrange another peace conference. This proposed interference is influenced by the effect of the strike upon the transic company's busness.

THE FIGHT.

IBY THE ASSOCIATED PRESS—P. É. CHICAGO, July 17.—In an attack this CHICAGO, July 17.—In an attack his afternoon on four colored stylke-breakers by a mob composed of spectators at an amateur ball game in the vicinity of the stockyards, two white men, one ppliceman and the four strike breakers were severely injured. After finishing their day's work at schwarzschild & Sulsberger's plant, the four colored strike-breakers on their way home had to pass the grounds where the game was in progress. Therwere fully 1000 persons watching the game, most all of whom were friends of the men who went on strike last week.

game, most all of whom were friends of the men who went on strike last week.

As the four workmen approached the place someone in the crowd yelled "Scabe" and instantly a rush was made for the negroes. Wood had a revolver and Baker a knife, and as the mob started for them they drew their weapons. Before they could use them, however, they were knocked to the ground by a dozen white men. Bakor scrambled to his feet and began slashingth and left, and before the knife could be taken away from him he had stabbed Kiely.

Wood fired into the crowd while lying on the ground. Two of the builets hit Durand, one of the attacking party. This opposition of the negroes set the crowd into a frenzy, and had not the police made a quick response to a riot call some of the strike breakers would undoubtedly have been killed. As it was, they were thrown to the ground and knocked insensible before the police could scatter the crowd. Several of the rioters, together with Wood and Baker, were arrested.

and firemen were the only men employed about the packing-houses today.
Michael Donnelly, international
president, arrived from Chicago and
spent much of his day in conference in
East St. Louis with strike leaders. He
addressed a mass-meeting of strikers
in East St. Louis. Several thousand
men were unable to gain admittance.
President. Donnelly received an ovation. He said:
"Wa shall never again enter into arbitration, unless every man, woman and
child who has been discharged or who
is out on strike has been returned to
their former positions without prejudice.
"Cattle buyers and other men who

years have given up their jobs rather than fill the positions of the strikers, and we would be ingrates if we accepted any plan which would not result in the immediate reëmployment of these men who had been faithful to us.

"This strike is only in its infancy. It will be the most gigantic in the history of the 'country since the coal strike. The meat strike affa-ts every workingman. It enters into the personal life of every home, for meat is an absolute necessity.

"No riot shall take place in Chicago or any other center, and the union officials and the men must see to this, even if they have to stand insult to avoid it. There were no riots as reported in Chicago and South St. Paul, merely brawls among our own men.

"We have had the representatives of the trades unions who are employed at the packing-houses say to us: 'We are at your command.' Whenever we say that they shall come out, they will march out to a man.

"The strike will never be forgotten. It will prove one of the best educators in the history of the country. It will illustrate the preeminent standing of the brotherhood of man."

At the conclusion of the meeting President Donnelly, in an interview, stated that, according to information which he had received from John Joyce, international secretary of the union, the packers killed between 500 and 1000 cattle during last week, as compared with 96,000 to 120,000 head during the same period one year ago.

"In three months time," said President.

with 96,000 to 120,000 head during the same period one year aga.

"In three months time," said President Donnelly, "It the strike should happen to last that long, the packers cannot get skilled men sufficient to kill over 5 per cent. of the regular run of cattle.

"Should a sympathetic strike be called, it will include the union men in every division of employment in the packing-houses. This will include the firemen, engineers, electrical workers, carpenters, plumbers, painters, coopers, steam fitters, drivers and railroad men. The latter will refuse to handle goods consigned to and from the packing-houses. This call will not be made until it is deemed absolutely necessary to win, but when it is made I have been assured that all will come out."

SCRANTON (Pa.) July 17.—Delegates from the Central Labor Unions of Scranton, Carbondale, Wilkesbarre, Pittston, Plymouth and Nanticoks met today to hear the report of the committee which was unsuccessful in seeing the President, to present the joint petition of the unions in behalf of the Colorado miners. Much feeling was shown, according to the report of the Press Committee, over the failure of the committee to secure an audience with the President, but after a good deal of talk the decision was reached to send a telegram to the President asking for an early audience, and when it shall be granted then to have the same committee call on the President and present the petition.

BUTCHERS CARING FOR CITY.

(BY THE ASSOCIATED PRESS—P.M.)

PHILADELPHIA, July 17.—For the first time in years, the West Philadelphia abattoir was in operation to-day because of the threatened scarcity of meat, due to the western strike. During the day, 560 head of cattle were slaughtered by independent dealers. The Philadelphia houses of the western packing concerns have only a small supply of meat on hand, and the local independent butchers are striving to take whatever business the western houses are unable to handle. The independents declare they can take care of the entire city. There is plenty of live stock in sight, but prices have been advanced about 2 cents.

Recruiting offices were opened here today for the purpose of filling the places of the strikers in the West.

Of his life and war record, the San Diego Union gives the following sketch:

Col. Martindale was born at Sandy Hill, N. Y., in 1817. He was a son of Judge Henry Clinton Martindale, a representative in the Congress of the United States 1823-31 and 1833-35, and a brother of Maj.-Gen. John H. Martindale of the United States Army. Col. Martindale was graduated from Union College, Schenectady, N. Y., in 1836. He was one of the founders of the Psi Upsilon Society in 1835, of the Psi Upsilon Society in 1835, or whom, perhaps, .e was the last survivor. He was a prominent lawyer in New York, New Jersey and lowa, and was for many years chancellor of the Episcopal diocese of Iowa. In 1861 he volunteered as a private and soon rose to the rank of colonel of the Twenty-sixth Regiment of New Jersey Volunteers. He was in many a hard-fought battle of the Civil War, in all of which he conducted himself gallantly, but he specially distinguished himself at the bloody battle of Malvern Hills, holding the command of a brigade. For this service he was offered a commission as a brigadier-general, which he refused. On two other occasions he was offered this rank, but refused it. He served with honor on the military staffs of several generals, including Benjamin F. Butler, Baldy Smith and others. In April, 1885, he was made the first military governor of Peters-burg. OFFICER RESCUES LITTLE CECILIA

MISSING GIRL FOUND WITH A DOUBTFUL PAIR.

Mrs. Wargin Leaves Child With Strangers Without Thoroughly In-vestigating Their Character and Regains Her Only Through Efforts

Cecila Wargin, the thirteen-year-old laughter of Mrs. J. M. Wargin of No. 103 Court street, who has been missing for three weeks was located in Mon-tecito yesterday through the efforts of Human Officer Webb and the Chief of Police of Santa Berbara, and last night she was restored to her mother.

she was restored to her mother.

The little girl was found with W. A. Emerich and wife, a peripatetic pair, who are said to be professional thief makers. Officer Webb is certain that the child was rescued from a criminal's lot, as he knows the Emrichs of old and says that they are graduates from and instructors in a school of crime, which has led scores of children into paths of wickedness.

About three weeks ago, Mrs. War-gin advertised for a position as nurs-

ery maid for her little girl, and an answer came from the Emerichs in which they stated that they would take the child as a companion. They gave references, which Mrs. Wargin did not take the trouble to investigate, and when transportation was sent for the child to journey to Santa Barbara, the mother, who is a hard-working woman, placed her daughter aboard the train and bade her goodby, thinking that she had provided her with a good home.

that she had provided her with a good home.

Bhortly afterward Mrs. Wargin's suspicions were aroused, as she could hear nothing from the child. Her fears were increased when she heard something of the character of the Emerichs, and when a search was made for them in Santa Barbara they could not be located. Humans Officer Webb took charge of the case and Emerich and wife were found in Monteclio and forced to give up the child.

Mr. Webb says that he ran the pair ou: of Santa Monica last February. At that time tiey had a ten-year-old girl with them and were in the habit of taking long trips in the country at right after chickens. The officer says that the child was dressed in overalls and forced to steal chickens. When the Humane Society started after Emerich he sent the child away and later disappeared.

Commerce of the Last Fiscal Year Enormous-Exports of Manufactures Make a Record-Splendid Showing for Republican Policy.

(BY DIRECT WIRE TO THE TIMES.)

ASHINGTON. July 17.—[Exclusive Dispatch.] The unparalleled prosperity claimed for this country under Republican administration has been once more strikingly demonstrated, this time by the enormous commerce of the last fiscal year, ended June 30, 1904, which aggregated \$2,461,574,623 in value, the highest figure ever reached in the history of the nation.

The increase in commerce applies to both exports of manufactured and domestic products, the exportation of the latter exceeding those of any other nation on the globe. The United Kingdom is, next to the United States, the world's largest exporter of domestic products, and until within recent years surpassed the United States in its total. During recent years, however, the United States has rapidly gained upon, and finally overtaken the United Kingdom in the race for supremacy.

The first year in which the exports of domestic products from the United Kingdom was 1898, the excess in our favor in that year being about 198,000,000. In 1899 the pendulum swung the other way, the exports from the United Kingdom exceeding those from the United States as exceeded those from the United Kingdom exceeding those from the United States are exceeded those from the United Kingdom exceeding those from the United States are exceeded those from the United States exceeded those from the United Kingdom of States are conducted those from the United States exceeded those from the United Kingdom of States are conducted those from the United Kingdom of States are conducted those from the United Kingdom of States are conducted to the product of the product of the product of the United States are conducted to the product of the United States are conducted to the product of the United States are conducted to the product of the United States are conducted to the product of the United States are conducted to the product of the United States are conducted to the product of the United States are conducted to the product of the United States are conducted to the product of the United States ar

It was discovered about 9 o'clock that the dam was in danger of breaking, and messengers were hastily sent through the valley to warn the people. Hundreds of lives were thus saved, for a few hours later the whole valley was under water.

The damage to the machinery and reservoir alone will amount to at least \$30,000. When the torrent swept down the valley, buildings were torn from their foundations and carried on the crest of the great wave like so many wash tubs. Crops valued at thousands of doltars were completely wiped out. Bridges were carried away. In the gorge just below the dam, huge trees were torn out by the food.

The new pump and engine installed. Saturday below the face of the dam to pump the leakage back into the reservoir were wrenched from their foundations, propelled twenty yards.

IDS TRAMPING

TO VENTURA

OUND UNDER TREE LOCKED IN EACH OTHER'S ARMS.

Two Little Brothers, Aged Ten and Eleven Years, Start Out to See the World and be Their Own Boss and in Due Course Are Found by

Locked in each other's arms, sound asleep under a large pepper tree on the San Fernando road, two little brothers were foilind by Officer Mc-Cauley a 4:15 o'clock yesterday morn-

ing.

Frightened by the blue uniform and star of "the copper" and heavy-eyed in the shimmering light of early dawn, the little tramps began to cry and begged not to be taken to the "calaboose."

boose."

Chester and Phillip Spencer, aged 10 and 11 years, had run away from their home at No 416 West Twenty-eighth street an, had started to walk to Ven-

street an, had started to walk to Ventura to see their grandmother.

"We just didn't have nothing to do and wanted to see the world," explained Phillip as he protectingly put his arm about his younger brother's neck. "Papa's dead sand we just make mamma a terrible lot of trouble so we thought we would go see grandma up at Ventura."

"Were you going to walk all the way?" asked the officer, trying to look severe.

way? asked the oliver, trying to be severe.

"We was a goin' to jump the train but we missed it," piped the little one, getting bolder. "I runned away before and it's lots of fun just bein' your own boss."

McCaulley trotted the youngsters over to the nearest station box and sent them to the lockup. Later in the morning they were turned over to the Detention Home, pending investigation.

DYSPEPSIA

Sale of \$1.25 to \$2.50 dress goods at 85c

Broken lines and single pieces-in many instances only a single dress length left, which proves their popularity conclusively.

Just about every plain and novelty weave that Fashion approves—Etamines, Voiles, Crepes and Eoliennes in solid colors and novelty effects, including popular light tints and black; widths 40 to 48 inches.

Mohairs, Cheviots, Serges, Homespuns, Scotch and English Suitings in 40 to 54 inch widths; solid colors, mixtures and black. Positively worth \$1.25 to \$2.50 a yard—one glance at those shown in windows will convince you of that. Choose now at 85c a yard.

The Coulter Lining stocks include every fabric of established merit, including full assortments of the famed Antherea, Success and Samson lining silks.

65c to \$1.25 laces 50c

Oriental, Venise, Chantilly and Applique bands and edges in cream, white, ecru and black-regular 65c, 75c, \$1.00 and \$1.25 values, marked 50c a yard to effect a quick cleanup. Assorted widths. No trouble in finding suitable lengths and widths if you come early.

65c to\$1-25 trimmings 50c

Little lots that we're anxious to weed out. Appliques, embroidered bands, jets, fancy braids and French handmade trimmings, in black, white and colors, including Persian effects and

evening tints.
Choose at 50c a yd.
Would be generously good values at 65c to \$1.25.

Underpriced undermuslins

Our Monday and Tuesday specials—better than usual. Qualities fully up to the Coulter standard: prices almost down to the usual cost of

\$1.00 Gowns 75c One style is of good mus-lin; V-neck; yoke of hemstitched tucks and ruffle; ruffled cuffs.

\$1.25 Gowns \$1.00 Five styles, in cambric and muslin, lace and embroidery trimmed; one style is of cambric with square yoke of hemstitched tucks and vallace insertion.

\$1.50 Gowns \$1.20 Nine styles, in cambric and nainsook. One style is of fine cambric, yoke of hemstitched tucks and embroidered insertion with embroidery edge at neck and cuffs.

\$1.75 Gowns \$1.35 Four styles, muslin and broidery and ruffle trimming.

New line of corset covers just opened—50c to \$5.00—exceptional values.

Rich black silks decisively reduced

Reductions where you least expect them—BLACK silks are the bread-and-butter staples of the silk business, and so are very rarely sold under their established prices.

21-inch black Taffetas, in Raven or Charcoal dye, value 75c a yd—now 55c.

21-inch black Peau de Soies in soft, lustrous, mellow finish, \$1.25 values—now \$1.00.

23-inch black Messaline silks in handson figured effects, \$1.25 values—now \$1.00.

Electro-chiffon Taffetas for Autumn suits-beautiful soft finished goods. rich and sparkling with newness-\$1.25 a yard. Colors-blue, brown, champagne, gray, cardinal, violet and castor. 20 inches wide.

Sale of slightly soiled blankets

The most interesting feature of the annual July sale to people who appr ciate liberal savings.

Dozens of blankets re-reduced because slightly solled from handlingseldom enough to necessitate washing, however.

Fleeced Blankets-

White, with colored borders. 10-4 size, \$1 value, 75c a pair. 11-4 size, \$1.25 value, \$1 pair. 11-4 size, \$1.85 value, \$1.50 pair. Wool Mixed Blankets-

11-4 size, \$8 and \$3.50 values, now, \$2.15 and \$2.55 a pair. 10-4 size, \$4.25 value, \$2.90 pair.

Fine White Wool Blankets-

All in full eleven-quarter size, weighing five pounds to the pair. The \$4.50 Blankets now \$3.15.

The \$5.00 Blankets now \$8.45. The \$6.50 Blankets now \$4.85, The \$7.50 Blankets now \$5.45.

Wash dress stuffs 1-3 under price

Seasonable fabrics-the cool, crisp, dainty stuffs that will be worn for two or three months yet.

But it's time they were sold.

20c instead of 35c-

Fancy cotton suitings in snow-flake, checks, dots and stripes, particularly desirable for shirt waist suits; 32 to 36-inch widths; 35c values at 20c yd.

30-inch cotton suitings for beach and mountain wear—very similar to above—regular 25c values at 15c yd. 10c instead of 15c-

Lappet lawns and fancy batistes; white and colored grounds in new designs; 30 inches wide. Regular 15c values, 10c yd.

32-in. madras suitings for shirts, shirt waist suits and children's garments. Regular 15c quality, now 10c yd.

Detention Home, pending investigation.

The runaways had a big bundle of
clothing and a package of carpenter's
tools which they said had been given
them by their uncle. The elder boy was
the oroud possessor of \$2. They are
not tough little boys, but just troublesome lads. Their mother, Mrs. Agnes
B Spencer, is a widow and is almost
distracted over their behavior. As she
is a 'rained nurse she can find but
little time, to care for them.

In the afternoon Charles, Plint, a
contractor, "Uncle Charley," as the
boys call him, although he is no relation, went to the Detention Home,
gathered the tots under his wing and
took then home.

INTEREST IS GREATER THAN EVER BEFORE.

THE fourth week of The Times scholgreater results already achieved, than in any previous contest at the same stage of the campaign. One year ago today the highest score, that of Miss Hibbard of Pomona, was 19,075. In the present contest at the contestants have already passed the 20,000 mark, and Harry Leftwich of Inglewood stands in the lead with the magnificent score of 34,754, while Miss Lula Briant of Los Angeles is a close second with 35,877 points to her credit. Last year on this date only ten of the contestants had passed the 10,009 make an earnest, conscientious students. greater results areasy achieves than in any previous contest at the same stage of the campaign. One year ago today the highest score, that of Miss Hibbard of Pomona, was 19,075. In the present contest eight of the contestants have already passed the 20,000 mark, and Harry Leftwich of Inglewood stands in the lead with the magnificent score of 36,754, while Miss Lula Briant of Los Angeles is a close second with 35,877 points to her credit. Last; year on this date only ten of the contestants had passed the 10,000 mark; this year no less than sixteen of the candidates have in excess of 10,000 votes as a starter. All along the line the figures are higher than they were last year at the close of the third week of the contest, which shows that interest in the competition is greater than ever before, and that the boys and girls competing for the prizes are hustlers. NEW SCHOLARSHIPS.

NEW SCHOLARSHIPS.

In this age of electricity there is always a demand for good telegraph operators, and lots of boys and girls would learn operating if given a chance. Most of the business colleges teach telegraphy, but it is not generally known that there is an institution in Los Angeles devoted exclusively to teaching practical telegraphy—the Pacific Telegraph School.

This institution occupies commodious quarters in the Pellissier Block, north-

remote from centers of population, Mary Grace is somewhat handicapped in the race for accumulating coupons and subscriptions on which the making of a score in the contest depends, but friends in various parts of Southern California are rallying to her support, and during the last week she has moved steadily upward. She is now in twenty-fifth place, but the chances are she will go a good deal higher before the present week is over.

Mary Grace Houston was born in Chicago, where her father-prepared for the ministry in McCormick Theological Seminary. When one and one-half years old she went with her parents to the Presbyterian mission in Nanking, China, where, when old enough, she started her education under her parents' teaching. In her tenth year the family returned to America on account of the father's failure of health, which he sought first to recover in Deming, N. M., where Mary attended school, and later in California, where she completed the grades in Beaumont in 1903. She remained out of school the past year to keep house for her father and younger brothers

This institution occupies commodious quarters in the Pellissier Block, northwest corner of Seventh and Olive streets. It is under the management of Mrs. Charlotte L. Tanner, who is not only a thorough and competent teacher of the art of telegraphy, but has had many years experience in actual telegraph service all manager and operator in Western Union offices. Bhe is ably assisted by R. E. Rogers, who has also had actual expérience in railroad offices. The school is well equipped with ample apparatus and is connected both by overhead and/underground wires with the different bustness colleges, giving the students long-distance practice—a very important item. In addition to telegraphy, the students of this school receive instruction in typewriting, spelling and penmanship. A scholarship in this school has been added to the list of prises to be awarded in the present contest.

A scholarship in a school of ceramic art (china and pottery decorating) has been suggested as a very desirable prise for soma young lady in the contest. Such a scholarship is available and will be added to the list, if there is any consestant who particularly desires it. Information as to its value and advantages will be furnished on application.

teams entered, but before the tourney was well started the Pasad-na alieys closed, and two teams drive out. A little later the Ocean Park team became mixed up on one of its own accress and thinking that it would be disqualified, also dropped out. Tro Monarch, Jr., team entered the race for the experience to be gained, but after bowling fifty games, and paying for them, decided they had had enough experience and quit. The Maple team defaulted on account of their home alleys closing. The Electrics expected to win first place, but quit after bowling seventy games, and the Belmonts also backed up after bowling two-thirds of their games, because two of their best players withdrew.

These withdrawais left enough teams, however, to make a very pretty race. Five different teams held the lead at one time or another, but the Long Beach men had several lucky nights and managed thereby to secure a lead which the other teams could not over-

danger and she made her best showing on the final leg, coming home on the run three minutes and fifty-two seconds ahead of her only remaining competitor. Computing Venus' time allowance, Mischief was the winner by fifty-five seconds only; had Marie stayed in use hunt there would have been the bottest kind of a finish between the two with the advantage if anything in the Wedgwood boat's favor.

finished minutes ahead of SeaBird and Mariei, the other contestants. Kephyr, the only entrant in the C class, came stringing in by herself with her honors for her company.

There was plenty of wind and it came from the normal quarter. The day was hardly what would be called ladies' weather. In fact, most of the boats were undeniably wet. The launch which went out with the judges ran her nose under several barrels of green sea and decided the channel was too rough to be fooled with. Most of the yachtsmen were soaked to the skin; the wind was raw; and, all told, the young crews worked their passags. Rough weather is generally conceded to be to the Marie's liking and it is a pity she could not have kept on and shown her capabilities in the chops with all the wind her skipper could ask.

Waiter Folsom sailed his own boat yesterday to the satisfaction of club members and spectators. It is likely the club will pass a rule dealing with this question and heaking it obligatory for yacht owners to steer their own craft in all feature regattas herselfer.

Wedgwood did a little between the pair before they had gone half a mile. Wedgwood did a little between the first mark thirty-three minutes after the starting gun, Mischief follow, ing half a minute later. Versus turned at 2.04.39; the rest were strung out behind. Then began the windward work, in which Marie met with her mishap while still in the lead. This was the only thing to mar the race, but it was enough.

A good gambling proposition will be the making of books on who breaks down the next time this trio starts; it is four to one something goes amiss.

CARS IN COLLISION.

About 5 o'clock there was a collision of three passenger cars at the point on Oregon avenue and Third street where the Montama-avenue loop crosses the main line. In this accident Moe Fogel, a 14-year-old boy, was seriously injured. Car No. 196, drawing a trailer, was going porth on Third street, and when crossing Oregon avenue the west-bound Hollywood car. No. 186, ran into it. Fortunately the car and trailer were practically empty. Young Fogel and Jack Henry, a companion, were occupying an outside seat at the end of the trailer. In the collision Fogel, who was situing nearest the side of the car, was struck on the head by some part of the Hollywood car. The Henry boy escaped without a scratch. Fogel was taken to the California. Hospital. Los Angeles, where an operation will be performed. The boy will recover.

ed His Victims Until Assured of Their Direction, Then Hid in Ambush, Killed His Enemy and Wounded His Wife. Shot Them Down from Behind.

COLTON, July 17.—With the cunning and stealth of a cat in pursuit of its prey, Pedro Chaves, followed Clato Avila and his wife through the streets of Colton tonight, and learning in what direction they were going went by another route and waited for them. When they came abreast of him, he thrust a 45-caliber revolver against Avila's head and blew out his braina. Turning suddenly upon the woman he fired three shots at her, one of the builets searing a gash in her neck and the others going wide of their mark. Seeing that the man was dead and tha' the woman had escaped him, the murederer coolly reloaded his revolver, despite the fact that several persons were approaching attracted by the shooting, and then walked away and disappeared. He has not been captured. COLTON, July 17 .- With the cun

The killing was the culmination of trouble of long standing between the men, of which the woman was the cause. She formerly lived with Chaves, but whether they were legally married is open to question. He has asserted that she was his wife, but she laughed at his claims.

Several months ago the woman deserted Chaves and, went to live with Avilla. Chaves attempted recently to retake her by force, but his efforts were defeated by Avilla, who, as soon as he had rescued the woman, took her to San Bernardino, where they were married. When Chaves learned of the marriage he swore that he would kill both of them and tonight he tried to keep his oath.

of the marriage he swore that he would kill both of them and tonight he tried to keep his oath.

Avila and his wife had been visiting friends and were returning toward their home, when Chavez was seen following them, but no person thought it necessary to warn them of that fact. Chaves saw that the direction they were going would take them past the First National Bank building, and he ran ahead and secreted himself behind a fence near that building. He allowed his victim to get past him, and then stepping up behind him blew out his brains before Avila knew of his presence. The woman fied screaming down the street, and summoned help, but when, in less than a minute, assistance reached Avila, he was dend and his murderer was walking away. The Sheriff was notified, and with sevenideputies and the peace officers of this towh, is conducting a search for the murderer. The officers expect to capture him before morning.

DISOBEYED AND DIED. SAN BERNARDINO, July 17.—Bo SAN BERNARDINO, July 17.—Because Henry Williams refused to obey the doctor's orders, and thought that he could walk to a bench outside his bedroom in safety, he lost his life. Williams was crushed under a failirg: tree in the mountains. He was recovering, but despite the warning of the physician persisted in leaving his bed. He walked to the bench and there sank, never again having a conscious moment. Testerday afternoon the funeral took place from a local undertaking parior, the burial being under the auspices of the woodmen with whom he was employed at Guernsey's mills.

these is the Young Zionists' Association, and among its membership many shares have been subscribed for the Colonial Bank. Another feature of Jewish patriotism is the use of the National Fund stamps on letters, parcels, etc., a voluntary tax that the fund may be increased. These stamps are of the denomination of 1 cent. and it is the purpose to introduce their use as freely as possible, thus bringing in from all over the world tributes from even the humblest and poorest Jews for the fund which it is hoped will be used eventually for the restoration of the race to a country of its own. Ventura are torn fro.n center to the outer rim by the latest developments in a piano contest which has been on here for several weeks. About all of swelldom of the little town is included within the orders of the Native Daughters, the Order of the Rastern Stars and the ladies of the Congregational Church. Now the three groups of ladies within these three organisations are at swords' points and are saying most uncomplimentary things of each other and the Native Daughters and Eastern Stars have withdrawn from the contest and the whole affair promises to fail. The rankling, however, will last for many a day.

It all came about through a Los Angeles hog deal which amounted to \$2000. A half dozen merchants of Ventura united to give away a piano, the object being to sell plano coupons with-purchases. One of the local dealers is in the butcher business and recently sold \$2000 worth of hogs to Julius Hauser of Los Angeles. The Native Daughters were forehanded and secured the \$000 coupons this purchase called for from Hauser. When they went to deposit their tickets they were told that the \$000 cluckets had been already turned over for the benefit of the Congregational Church. Then an investigation was started by the Native Daughters, who found that the only order for the Congregational ladies was an entry in a note book.

The way in which the transaction was carried out did not please the Native Daughters, and at a meeting laxinght they withdrew from the contest, which they declared to be unfair. with a country of their own, in order to overcome the persecutions to which they were subject in all quarters of the globe.

In 1897, through the leadership of Dr. Herzi. Jews from all over the world gathered in Switzerland—the first event in the new period of Jewish life. Since that time six congresses have been held. In 1890 the congress organized the Jewish Colonial Trust, accord: to Dr. Herzi's plans, and it also established the National Fund. To forward the Zionist movement Dr. Herzi visited all the countries of Europe, and it was his personal visitation to the Sultan of Turkey which paved the way for the Hebrew occupation of Palestine. Five times he visited the Sultan, and negotiated the loan which gave to the Jews the entrance to their former country.

S. Rosin then spoke in the Hebrew lancuage on "What the Jews have lost in the death of Dr. Herzi." He was followed by Ben Davidson, who paid a beautiful tribute to the departed leader, but expressed the belief that the reunited Jewich sentiment for a return to the land of the forefathers would still grow under new leadership. 'Dr. Solomon spoke of 'Dr. Herzi as a unitying factor in Judaism." This

SANTA ANA. July 17.—Fred Chatterton has sunk an artesian well flowing about sixteen miner's inches on the Berry ranch at Fairview. The well was bored to a depth of 202 feet and spouts five feet above the end of the two-inch pipe which delivers the water. J. Hynes, on a neighboring ranch, at a depth of 325 feet struck artesian water which is flowing about twenty inches. The dry year has caused many of the ranchers of that section to put down wells to get water for irrigation, and the result is the installation of a large number of new pumping plants, where the flow of artesian water is insufficient.

A union meeting of the young recommenders and the result is the installation of a large number of new pumping plants, where the flow of artesian water is insufficient. BETTER WATER SUPPLY.

RENO WINS AGAIN.

[BY THE ASSOCIATED PRESS—P.M.]

RENO (Nev.) July 17.—In a race that was exciting up to the last relay, Reno defeated the San José team in the relay race for the Coast championship this afternoon, winning by one mile in a fifty-mile run. Reno made the break in the second relay and gradually lengthened the gar to one mile, which she held until the close.

Last year San José defeated Reno, taking the championship—from her. Later she lost it, and on July 4 Reno recovered her lost laurels by defeating Oakland at Carson. RENO (Nev.) July 17 .- In a race that

COMPANY REORGANIZED.

BERLIN, July 17.—The German-American Petroleum Company of Bre-men, which is the Standard Oil Com-pany's German branch, has undergone reorganization, the Standard Company buying up the German stock and re-placing most of the German directors by Americans. The stock bought con-sisted of part of the 174,000 non-voting shaws. It is understood that the price sisted of part of the 174,000 non-voting shares. It is understood that the price paid was \$62.52 per share, and \$4.25 for the semi-annual dividend coupon. The reorganization is interpreted here to mean that the German directors were not willing to support the Standard Oil Company in fighting the Russian and Austrian oil interests.

CATALINA ISLAND,
WHAT MIGHT HAVE BEEN.
AVALON, July 17.—Dr. Walter J.
Lincoln of Cleveland isn't telling his
experience Jewishing yesterday, He
was out with "Commodore" C. C.
Paine, with the launch Lydia, Capt.
Quigley, At an early hour they started for the Jewish grounds and they
had but a short time to wait until the
doctor was connected with something
but he wist not what. The creature
started on a run with his bait, and
the doctor braced up. Then the pace
grew faster and faster and the doctor
braced up a little harder. Now the
pace grew furious and the angler's
face began to blanch and his muscles
to cramp. He was guessing whether he
ha, hitched his wagon to a failing star
or a submarine torpedo boat. The fight
lasted for more than an hour and from
time to time stimulants had to be administered to the Ohio man. When,
finally, he got the fish subdued and
was about to bring it to gaff, it was
discovered that the creature was so
small as to be under the kindergarten
class and then—it got away.

SANTA MONICA, July 17.—This was evidently the Los Angeles-Pacific's unlucky day at Santa Monica, for it had three accidents. The chapter opened shortly after noon, when Fred Ball was killed by a westbound car will be seventeenth street and Oregon avenue. His body had scarcely reached the Ivectiving Hospital before another westbound car had run down a little girl who was attempting to cross the track

Conductor Pat Gillis, knocked down and painfully injured Lucy Harris, the Syear-old daughter of William Harris. Lucy and a playmate of about her own age were on their way to Sundayschool. They had carefully awaited the passing of an east-bound tar, when they darted across the tracks. Lucy's playmate was in the lead and cleared the track ahead of the car that, was approaching from the east. The car struck Lucy, knocked her into the fender, which pitched her headlong to the north side of the track. Forfunately, so far as can be observed, her injuries are no more serious than a fractured rib and badly-bruised legs and arms and body.

CARS IN COLLISION.

About 5 o'clock there was a collision of three passenger cars at the point on Oregon avenue and Third street where the Montana-avenue loop crosses the main line. In this accident Moe Fogel, a 14-year-old boy, was seriously injured. Car No. 194, drawing a trailer, was going north on Third street, and when crossing Oregon avenue the west-bound Hollywood car, No. 184, ran into it. Fortunately the car and trailer were practically empty. Young Fogel and Jack Henry, a companion, were occupying an outside seat at the end of the trailer. In the collision Fogel, who was sitting nearest the side of the car, was struck on the head by some part of the Hollywood car. The Henry boy escaped without a scratch. Fogel was taken to the Callifornia Hospital. Los Angeles, where an operation will be performed. The boy will recover. CARS IN COLLISION.

The Baltimore Bonapartes.

Jerome Bonaparte, who is spending the summer with his mother, Mme. Bonaparte, is the fourth in line from the Jerome Bonaparte who married "Betsy" Patterson 101 years ago in Baltimore. The wedding was performed by the Right Rev. John Carroll, Bishop of Baltimore, in the presence of M. Sotin, the French Consul; the Mayor of Baltimore and other personages. Mme. Bonaparte had one son, who was with her in Italy and Switzerland and who became a great favorite with the mother of Napoleon at Rome and with Pauline, Princess Borghese, his aunt. He also visited, his father, who was at one time King of Westphalia. Jerome Napoleon Bonaparte, the only son of Jerome Bonaparte and Elisabeth Patterson, married, in 1829, Miss Susan May Williams of Baltimore. Jerome Napoleon Bonaparte the third was born in 1830. The Princess Mathilde, the widow of the Count Demidoff, who recently died in Paris, was a half-sister of Jerome Napoleon Bonaparte the the second, and, consequently, a half greataunt to the present Jerome Bonaparte, who is the fourth in line. The late Prince Napoleon was a brother of the Princess Mathilde. Long Walk With a Cat.

Peter Deighan of Belleville, N.J., today started to walk from the North End Club of that place to Albany, Ga., where he was to deliver a message to a former member of the club in that city. Deighan has taken with him a dog and a cat, and he is not to allow these to get away from him until he reaches Albany. The walk is the resuit of a wager of \$100 that he can reach Albany with his pets, although when he left here he did not have a cent with him. He is to get his meals and lodging by singing and dancing along the road and in the hotels. His time is unlimited, and he will not hurry himself to reach Albany.—[New York Times.]

(BY THE ASSOCIATED PRESS-P.M.: IBY THE ASSOCIATED PRESS—P.M.?

LONDON, July 17.—(By Atlantic Cable.) Reports to both the Press Association and the Central News assert that a further examination of the tody of F. Kent Loomis, which was found yesterday at Warren Point, some fifteen miles from Plymouth, has given rise to grave auspicions on the part of the local osscials that Loomis met with foul play. The wound behind the right ear is described as being circular, large and clean, and it is thought that it was inflicted pefore death. It is surmised that Loomis's body fell into the water near the Eddystone lighthouse.

to the water near the Eddystone light-house.

Joseph G. Stephens, American Consul at Plymouth, in response to a telegram sent by the Associated Press tonight, asking him if the local reports of foul play had any basis, or if ne had any ground for suspicion regarding the death of Loomis, replied: "regret I cannot make any statements prior to the inquest, which will be held tomorrow. The wound in the head back of the right ear is the size of a half soliar. The body is fairly well preserved, especially about the top and back of the head, considering the time it has been in the water."
